

# SKOPE Glass Door Inserts and Shelves

SKOPE has developed a range of high quality glass door inserts and shelves using our market leading design and manufacturing expertise. These glass door inserts and shelves are suitable for cool and freezer rooms, and offer superior performance and reliability. They are available in a range of sizes and configurations, and can be used for new installations or retrofitted into existing rooms.

## Frame Features & Benefits

- **Anti-condensation design** with warm edge technology to eliminate condensation
- **Robust integral LED lighting** to maximise product presentation while minimising energy consumption
- **Structurally strong extrusion design** ensures safety and durability
- **Quick and easy to install**, minimising disruption during project build
- **Reveal or rebate flashing** available for tidy finish and integration with wall linings\*

## Door Features and Benefits

- **Left or right door opening option** available to suit shop layout
- **Available in anodised silver or black**, or powder coated
- **Self-closing doors** with full length handles for easy opening and closing
- **Alignment adjustment** to ensure doors are level
- **Heavy duty gasket** to withstand high usage
- **Easily adjusted ratchet torsion system** in the door; torsion bar can be replaced without dismantling the door

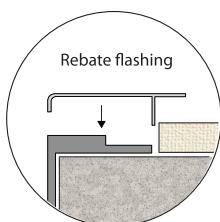

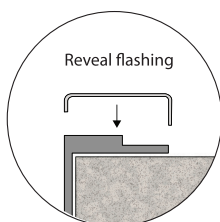

**Warranty**  
5 year protection

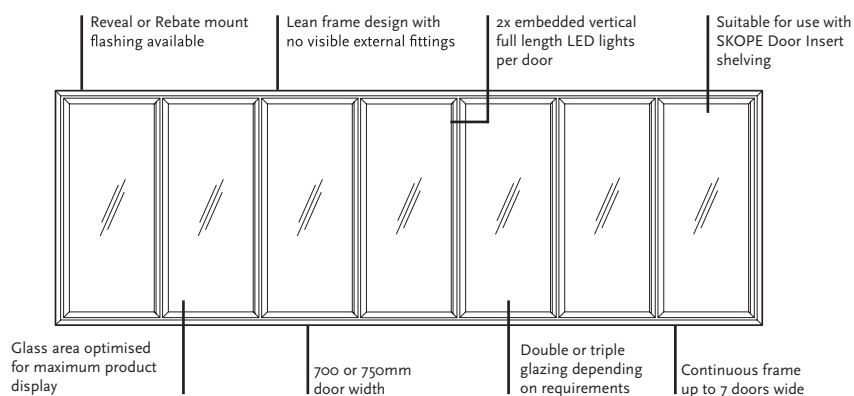

Reveal flashing for standard cool room installations

Rebate flashing for integration with wall linings
